

WANDERLUST

by on a Whimsical Adventure

The muted color scheme of the 'Wanderlust' collection will allow your travel pictures and stories to shine. The purples, greens and neutrals will look especially great with pictures of lavender fields, woods and mountains. I've used old maps, vintage lavender, handdrawn illustrations and damask for the papers. Wooden embellishments, vintage ephemera, stamps and transfers, travel themed illustrations, a set of journal cards and a set of layered frames are the icing on the cake. Bon voyage!
